

A**CovILD cohort**

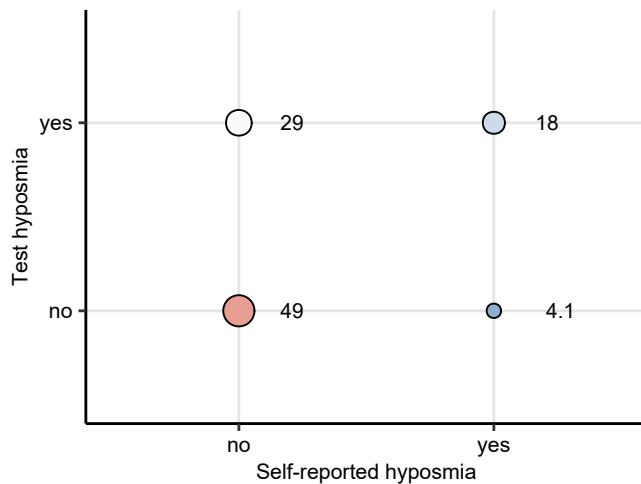

$\kappa = 0.25$ [0.083 - 0.42], $p = 0.038$, $n = 95$
% of complete observations

**B****Ambulatory, CovILD study**

$\kappa = 0.29$ [-0.074 - 0.66], ns ($p = 0.19$), $n = 23$
% of complete observations

**C****Moderate, CovILD study**

$\kappa = 0.32$ [0.091 - 0.56], $p = 0.038$, $n = 49$
% of complete observations

**D****Severe, CovILD study**

$\kappa = 0.025$ [-0.23 - 0.29], ns ($p = 0.4$), $n = 23$
% of complete observations
